In the ancient Indian society women were adored and worshiped as goddesses. However in the middle age, the status of women got down to a great extent. Women were considered in the society only to perform duties like bring up children, caring every family member and doing household activities. Now-a-days, women are breaking all the barriers of social issues and are getting ahead becoming financially independent and economically sound. But still, women are facing a lot of problems because of male dominated, patriarchal society system, practice of old traditional believes, etc. They have to perform both family and professional responsibilities together. In some cases, the condition of women becomes more embarrassed when they get tortured by their family members instead of getting help. Sexual harassment is more common at homes as well as in the offices by the family members, relatives, neighbors, friends, boss etc. They have to suffer a lot in their daily life to nourish their career as well as saving their family relationships.

Attaining equality between women and men and eliminating all forms of discrimination against women are fundamental human rights. In order to achieve equality between women and men, a comprehensive understanding of the ways in which women experience discrimination and are denied equality is required so as to develop appropriate strategies to eliminate such discrimination. Therefore in order to educate the students about their pro-societal role, on 14 November 2019, Jaypee University of Information Technology organized a legal awareness camp on the theme of "Gender issues in the contemporary times". This camp included two major events- talk given by the renowned Advocate - Ms. Sheetal Vyas and a panel discussion on the theme.

The talk by Ms. Vyas was educative and informative. She covered the points regarding the gender disparities faced in the society, the legal assistance that is

offered to every women and finally the effective ways to use them so that the perpetrators face the law while there are no negative repercussions on the victim.

The panel discussion, which was held later, also tackled many crucial issues of today's society. The discussion covered aspects varying from shift in the gender roles to the complexities of the new age, from workplace issues to parenting and education and everything else that comes in between.

To sum up, we can say that the legal camp was a success as the attendees of these events got to know about the legal aid offered to them so as to safeguard themselves and their private space.
