## **Event Objective:**

As the kickoff event for first-year students, Breakout gave them a glimpse into the exciting range of activities hosted by TIEDC. It was designed to spark curiosity, sharpen critical thinking, and encourage collaboration, while also helping participants strengthen their research skills.

## **Event Description:**

The event unfolded over five rounds. It began in LT3, where the rules were explained to everyone. Teams were given a riddle, each packed with clues related to a business, technology, or startup. They had five chances to crack it, and the quicker teams moved on to the next stage, with a token as their key to progress. The rounds kept flowing until either a set number of teams advanced or time ran out, leading to the final round, which took place at the cell.

## **Event Benefits:**

- First-year students discovered the wide array of activities TIEDC offers, which sparked their interest and eagerness to get involved in the future.
- By working through tricky riddles, participants honed their problem-solving, critical thinking, and research skills.
- The event also gave them a chance to connect with fellow students and seniors, helping them build relationships and expand their network from the start.
