# Webinar Session

Journey from an engineer to a co-founder

**Technology Incubation and Entrepreneurship Development Cell organized its first webinar session of an open to all series to welcome seasoned professionals for an interaction.**

Mr. Dhruv Batra, the Co-founder and Chief Marketing Officer of Life Optoelectronics was the guest speaker for the day. He is an alumnus of JUIT from 2013-17 ECE Batch.

The session started with a greeting from Mr. Ashish sir who welcomed everyone and introduced the purpose of the webinar series which is to gain experience from those who currently work in the corporate world and have practical experience in the field of entrepreneurship.

Mr. Dhruv Batra talked about the basics and explained the key concepts to become an entrepreneur and encouraged students to read and observe their surroundings from a different aspect. To find a problem is first thing, proposing a solution? The second. Mr. Batra also explained about production and discussed various real-life models to for a better understanding of the facts presented.

The presentation was followed by a series of questions asked by the students which proved to be a fruitful discussion. Attendess got true insights as the speaker shared his amazing experiences with everyone present.

The session ended on a positive note with a commendable feedback from the attendees and the speaker and a vote of thanks to wrap it all up.
