One-Day Exposure Visit of GSSS Kandaghat Students to Incubation Centre,
Jaypee University, Wagnaghat
(21st March, 2025)

On March 21, 2025, an enlightening and interactive **exposure visit** was organized for the students of **Class 9th of Government Senior Secondary School (GSSS) Kandaghat**, District Solan (Himachal Pradesh), to the **Incubation Centre and other lab facilities of different departments of the university**. The primary objective of this visit was to provide students with an early exposure to **emerging technologies, government-supported innovation schemes**, and real-world applications of **science and technology**, supplementing their academic learning with practical experiences.

The students were warmly welcomed by Prof. Ashish Kumar, Nodal officer Incubation Centre and the incubation team, who introduced them to the concept of **startup incubation**—a space where creative ideas are supported, mentored, and developed into working solutions. The **Incubation Centre at JUIT** serves as a platform for budding

innovators and young entrepreneurs to work on technological projects addressing both local and global challenges.

A key highlight of the visit was the **live demonstration of drone technology**. Students were introduced to the fundamentals of how drones operate, their various components (such as propellers, GPS systems, and sensors), and their growing importance in sectors like **agriculture, disaster management, surveillance, and delivery services**.

The visit also included a dedicated session on **Government of Himachal Pradesh schemes** aimed at promoting innovation, skill development, and digital literacy among the youth. The students were given a brief about the CM startup scheme.

The exposure visit proved to be a **transformative learning experience**, offering students a rare chance to engage with innovation outside the traditional classroom. It instilled curiosity, broadened their understanding of technology, and motivated them to pursue further studies and careers in science, technology, and entrepreneurship.

Such initiatives are crucial in nurturing the talent of tomorrow, especially for students from semi-rural areas, by providing them with inspiration, guidance, and awareness of the **pathways available through education, technology, and government support**.
