Scheme (SISFS). He explained different stages of startup funding—from pre-seed and seed to scaling—and discussed the roles of angel investors, venture capitalists, and government support schemes. Special emphasis was given to state-level initiatives such as the Himachal Pradesh Startup Policy and HIM Startup Yojana, which provide incubation support, sustenance allowance, patent cost reimbursement, and market access to entrepreneurs.

The session concluded with an interactive discussion where participants explored funding challenges, investor expectations, and opportunities in India's evolving entrepreneurial landscape. The event served as a valuable platform for early-stage innovators to understand funding avenues and align their ventures with India's vibrant startup ecosystem.
