

Webinar Session by Alumni Mr. Pranjal Gupta

13 October, 2018

In the evening of 13th October 2018 TIEDC of JUIT organised a session with Mr. Pranjal Gupta.

Gupta is highly skilled at **android development** and **business development**, he has experiences in customer relationship management. He currently works as a marketing consultant at **nearbuy.com**, His every action as an Entrepreneur is motivated with the intention of giving back to society.

During the session Mr. Gupta talked to the students online for an hour via video conference, enriching the minds of the motivated students about android applications, and briefing them about the business development methods and process. This event proved to be a great success as students learned several things gained by him with years of experience in just an hour.

Key learnings of the session were-

- Android Application Development
- Application Publishing process on google play
- Android Application Projects
- Business Development
- Business growing Techniques

The session ended with a shower of questions from the inquisitive minds which all were cleared, and doubts were removed.
