

JAYPEE UNIVERSITY OF INFORMATION TECHNOLOGY (JUIT), WAKNAGHAT
DOCTORAL PROGRAMS (Ph.D.) 2022

Ph.D. Programs are available in the following disciplines: Bioinformatics, Biotechnology, Civil Engineering, Computer Science and Engineering, Electronics & Communication Engineering, Humanities & Social Sciences, Mathematics, and Physics & Material Sciences at JUIT Wagnaghat. The scholars are required to undertake intensive research work under the guidance of supervisors on a specific problem for a duration as specified in the Ph D ordinance. The research work is expected to result in new findings contributing to the knowledge in the chosen field. The doctoral research program gives an opportunity to students to demonstrate their analytical, innovative and independent thinking ability, leading to creating new knowledge and showcase its application. They are also required to take part in some advanced level course work. The scholars are required to deliver seminars on their research progress every semester and publish their work in journals of international repute. Finally, they are required to submit the thesis embodying their research findings for examination by an Indian and a foreign expert for the award of the Ph.D.

The following sub areas are identified in the respective disciplines for undertaking research:

Biotechnology, Bioinformatics

The Department of Biotechnology and Bioinformatics possesses a vision to produce professionals with leadership quality in technology, creativity, innovation and entrepreneurship. Apart from UG and PG programs, the department has Ph.D. programs in Biotechnology and Bioinformatics. The department is equipped with state-of-the-art laboratories with sophisticated instrumentation facilities and workstations. The faculty works in diverse research areas and is trained by reputed national and international organizations of repute. The department received research funding from DBT, DST, ICMR, DRDO, MOEFCC, Industry, HIMCOSTE, etc. As of date, 10 patents have been granted to the department. The department has active Students Exchange Program with the University of Nebraska at Omaha and South Dakota Mines – An engineering, science and technology University, SD, USA. The department has active research collaborations with reputed national and International Institutes.

Civil Engineering

The Department offers PhD opportunities in various sub-domains of Civil Engineering including Structural Engineering, Highway and Transportation Engineering, Geotechnical Engineering, Hydraulics Engineering, Environmental & Water Resources Engineering, Hydropower, Construction Management, among others. The highly qualified faculty members with their impeccable academic records work tirelessly to produce quality research. Having graduated from internationally reputed institutions like University of North Carolina, IITs and NITs, the faculty members strive for interdisciplinary collaborations to conduct relevant research and provide effective solutions to practical problems. The Department is equipped with state of the art

laboratory and soft computing facilities equipped with latest equipment and software. Various funding opportunities through internally and externally funded research and development projects are also available with the Department

Computer Science & Engineering

The Department has an active Ph D program conducted with supervision by 22 Faculty Members with Ph D from reputed institutions. The Department has awarded 41 doctoral students; and 19 scholars are pursuing Ph D at present. The department also has active post graduate programs in M Tech CSE and M Tech CSE(Information Security). The department has more than 723 publications in reputed journals/conferences. The Department offers following research specializations at doctoral level: Parallel and Distributed Computing, Mobile Computing, Cloud Computing, Computer Networks, Wireless Sensor Networks, Forensics, Security, Software Engineering, Image Processing, Computer Vision, Data Mining & Warehousing, Information Retrieval, performance of Algorithms, Artificial Intelligence, Natural Language Processing, Internet of Things (IoT), Information Security, Vehicular Networking. etc. The awarded Ph.D. Scholars of the Department are well placed in leading research laboratories, industries and universities of national and international repute.

Electronics & Communication Engineering

The Department of Electronics and Communication Engineering (ECE) offers Post-Graduate Programs: M.Tech. in ECE and M.Tech. in ECE with specialization in Internet of Things (IoT), and a Doctoral Programs with major thrust areas of Networked Control Systems design, VLSI Design Technology, Computer Vision & Robo-Vision, Cognitive Radio, Wireless Sensor Networks, Digital Image Processing, Digital Signal Processing, Genomics Signal processing, Radar Signal Processing, Aerial Robotics, UAV, UGV, VLSI Signal Processing, Signal processing for machine learning and deep learning, Industrial Internet of Things, Internet of Medical Things, Cyber-Physical Systems, Smart Antenna design, and Microwave Engineering along with the Undergraduate Programs: B.Tech. in Electronics and Communication Engineering (ECE) and Electronics and Computer Engineering (ECM). The Department has been actively engaged in research, with a large number of publications in refereed journals and many research projects funded by external agencies like ISRO, DRDO, DST, HIMCOSTE, etc. Faculty members have research collaborations with universities abroad and are engaged in joint research projects. M.Tech. and Ph.D. alumni from our department are currently working as faculty, post-doctoral fellows, and research scholars in IITs and in other reputed universities in India and abroad. Also, our alumni are currently working in key positions in companies like British Telecom, Microsoft, ONGC, Mitsubishi, Dell, Siemens, Mathworks, Ericsson, Bosch, Tata Motors, Tech Mahindra, Infosys, Amazon, Wipro, PicsArt, and Cognizant, etc. Department organizes an IEEE international conference once in every two years. Other activities like

workshops, seminars, hackathons, and expert talks are also organized by the department regularly.

Humanities & Social Sciences

The Department of Humanities and Social Sciences strives to nurture young minds to become well-rounded engineers, responsible global citizens and leaders. The Department acts as a change-facilitator by imparting professional and behavioral competencies to complement the existing and emerging educational programs of the University. We have multifaceted faculty in the Department who offer a variety of contemporary courses to students at undergraduate and post-graduate level. Additionally, the faculty has been conducting FDP programs, community development programs and workshops based on research methods. Research is an important component not only for academic excellence but also for creation of new knowledge. The PhD degree is designed to impart competitive edge in the candidates so that they can fulfill their professional goals in the area of their choice like teaching, consulting, research or any other. Faculty in the Department has been actively pursuing and guiding research in the different areas of Management, Humanities and Social Sciences like Marketing Management, Finance, Economics and International Business, Human Resource Management, Business Communication, Political Science, Good Governance etc. with research publications in journals of high repute. Research specializations include Consumer Behavior, Service Marketing, Internet Marketing, Corporate Social Responsibility, Emotional Intelligence, Good Governance, English Language and Literature, Conflict Management, Corporate Finance, Financial Econometrics, Personal Finance, International Business, Behavioral Finance, Economic Development and Financial & Management Accounting.

Mathematics

The Department mainly caters to the needs of various Undergraduate (B.Tech) and Post Graduate (M.Tech/MSc) programs of the University by offering requisite mathematics courses, including both core and electives. The Department of Mathematics also offers its own Ph.D Program with specialization in the areas of Mathematical Modeling and Simulation, Operations Research, Differential Geometry, Soft Computing Techniques, Nonlinear Partial Differential Equations, Fuzzy Mathematics, Algebraic Coding Theory, Boundary Value Problems

Physics & Materials Science

The award of the Ph.D. degree is in recognition of high academic achievements demonstrated by independent research and application of knowledge to the solution of technical and scientific problems. Creative and productive inquiry is the essential requirement underlying research work.

The Department has vital research interests in microwave antennas, compound semiconductors, nanomaterials and computational nanotechnology. The department has 07 faculty members with diverse research experiences in Nanotechnology, Polymers, Sensors, Quantum dots, Compound Semiconductors, etc. The faculty of the Department has executed sponsored R & D projects worth approximately more than one crore of external research support from various funding agencies like CSIR, ISRO, DST(SERB), DRDO, etc. The academic program leading to the Ph.D. degree involves fulfilling course credit, publication and conference presentation of research work and a thesis giving a critical account of the research, in any of the areas listed viz. Nano-Structured Materials, Microstrip antennas, Polymer and Composites, Compound Semiconductors, Ferrites, Quantum dots, Glasses, and Sensors.
