POLICY FOR PROMOTION OF RESEARCH 2026

1. PURPOSE

The objective of research policy at JUIT is to inculcate a culture of innovation in research amongst its faculty, students and staff.

2. OBJECTIVES

- To develop an environment for research and innovation.
- To support the faculty and scholars in carrying out their research activities.
- To encourage peer-reviewed publications in reputed/indexed journals.
- Encouraging faculty to get sponsored research projects.
- To promote interdisciplinary and multi-disciplinary research at national and international levels.
- To develop Centres of Excellence in novel research areas.
- To encourage researchers to file patents for their innovations.
- To create an ecosystem for developing entrepreneurship.

3. CUSTODIAN OF POLICY

All research related activities and policy in JUIT are governed through the office of Dean Research & Internationalization (R&I). The office of Dean (R&I) functions under the Vice Chancellor of JUIT.

4. INITIATIVES FOR PROMOTION OF RESEARCH IN JUIT

For Faculty

- **Research emphasis during Faculty Recruitment in JUIT:** During faculty recruitment at JUIT, emphasis is given on selection of Doctorate and Post-Doctorate faculties from institutes of repute. Peer-reviewed publications and ability to submit innovative & collaborative project proposals remain focus during selection process. To enhance research and innovation in universities, Jaypee Education System has Director of Innovation, Research and Development (DIRD)

to identify and fund novel projects/centres of excellence involving faculty and students.

- **Support for Academic/Research Events:** Administrative and financial support is provided to faculty/staff for attending conferences, workshops, seminars, faculty development programs, and other academic events. Support is also provided for organizing academic/research events in India as well as abroad. Duty leave/sabbatical leave is also provided, wherever applicable, to attend such events.

- **Performance Linked Annual Appraisal:** JUIT has performance linked annual appraisal with substantial weightage for research performance of faculty including their involvement in research projects and quality research publications.

- **Special and Book/Periodicals Allowance:** All faculty members are given special allowance on monthly basis as per their rank or position (Professor/Associate Professor/Assistant professor). Apart from this, Book and Periodicals allowance is also provided on monthly basis to Professors, Associate Professors, and Assistant Professors respectively.

- **IPR Cell:** IPR Cell of JUIT offers IPR education, awareness, identification, protection, and filing of innovations with financial support arising out of research work carried out in the University.

- **Travel Support:** University provides TA/DA as applicable for faculty members for participating in academic and research visits in and out of station. Selected faculty members also get full/partial financial support for overseas travel to participate in such events.

- **Research Facility:** With the approval of Vice Chancellor, research facility is available for academic/research activities. In case of delay of research grants, respective Project Investigators may get advance/loan basis for their project activities.

- **Consultancy:** University encourages the faculty to involve in consultancy work with public as well as private sector and a special consultancy policy is in place.

For Research Students

- **Teaching Assistantship:** University provides Ph.D. fellowship to Ph.D. scholars for six semesters.
- **For M. Tech. Students**: GATE as well as Non-GATE qualified (After qualifying JUIT entrance examination) students are eligible for admission and get fellowship (excluding summer and winter vacation periods).
- **Contingency Funds:** Selected Research scholars are given contingency funds for attending conferences/characterization and other research related work by the University.
- **Support for Attending Academic/Research Events:** Financial support to students is given for attending national conferences/workshops and related events.
- **IPR Support:** IPR Cell of JUIT supports the students and faculty for filing their patents. IPR students' body along with faculty coordinators sensitizes students of all streams regarding IPR procedures and its importance.
