

Workshop
On
“Tomato Disease Identification Using Android App for the farmers of H.P”
Organized By
Project Coordinators: Dr Meenakshi Sood and Dr. Pradeep Kumar Singh.
Supported by
Department of Environment, Science & Technology, Himachal Pradesh

A workshop for ‘Tomato Disease Identification Using Android App for the farmers of H.P’ was organized on 16th March, 2019 at Jaypee University, Wagnaghat under the project support from Department of Environment, Science & Technology, Himachal Pradesh. The workshop was organized and coordinated by **Dr. Meenakshi Sood and Dr. P.K Singh**. Purpose of the workshop is to share the advantages of the project and get the feedback from the farmers on the specific area. About 60 farmers from various panchayats of Chawsha, Bisha, Richana, Deholi, Wagnaghat, Naunigrati and Bani benefitted from the workshop.

The resource persons **Dr. Bhanu Neopaney**, Principal Scientific Officer HPDEST, **Dr. Manica Tomar** from Nauli University and **Dr. Mohan Singh**, Scientist ICAR Shimla addressed the farmers.

Vice Chancellor Prof. Dr. Vinod Kumar gave the inaugural speech welcoming all the farmers. Dr Pradeep Kr Singh addressed the gathering and provided the information to the farmers about the project. Dr Meenakshi Sood abreast the gathering about the app being developed and how it is going to be help the farmers at large.
