

EVENT REPORT

DECODED – Murder Mystery Event

Organized by: SYNAPSE

Event: NEXUS'26 – Mini Flagship Event

Date: 16 September 2026

Event Type: Murder Mystery / Detective Challenge

Introduction

DECODED was a murder-mystery themed event organized by **SYNAPSE** as part of **NEXUS'26**, the club's Mini Flagship Event. The event was designed to provide participants with an engaging and interactive experience centered around investigation, logical reasoning, observation, and problem-solving.

Event Overview

The central concept of DECODED was to put participants in the role of detectives. Participants were required to examine clues, connect pieces of information, uncover hidden details, and work towards identifying the truth behind the mystery. The event combined entertainment with analytical thinking, encouraging participants to approach the case systematically rather than relying on guesswork.

The event was promoted with the theme: **“Put your detective skills to the test, solve the clues, uncover the truth, and crack the case!”** This reflected the primary objective of the event: creating an immersive mystery-solving experience while encouraging participants to apply reasoning and teamwork.

Objectives

The major objectives of DECODED were to:

- Encourage logical and analytical thinking.
- Develop observation and deduction skills.
- Promote teamwork and collaborative problem-solving.
- Provide students with an engaging experience beyond conventional academic activities.
- Encourage active participation in SYNAPSE and NEXUS'26 activities.

Event Experience

DECODED was structured around the progressive discovery and interpretation of clues. Participants had to analyze the information available to them, identify connections between different clues, and use deduction to move closer to solving the mystery. The format was intended to maintain suspense and engagement while testing participants' ability to think critically under the pressure of a competitive event.

Recognition and Prizes

Participants competed for **exciting Decathlon goodies**, adding a competitive incentive to the mystery-solving challenge. The event also provided students with an opportunity to interact with peers and participate in a distinctive club-led activity.

Conclusion

DECODED added an interactive and unconventional element to **NEXUS'26** by combining mystery, investigation, reasoning, and competition. Through its detective-themed format, the event aimed to create an engaging experience while developing problem-solving and analytical skills among participants. It represented SYNAPSE's effort to organize activities that were both entertaining and intellectually stimulating for the student community.
