Solan - 173 234
Himachal Pradesh

Subject: Registration of Public Funded Research Institutions or a University or an Indian Institute of Technology or Indian Institute of Science, Bangalore or a Regional Engg. College, other than a Hospital*, for purposes of availing Customs Duty exemption in terms of Notification No. 51/96-Customs dated 23rd July, 1996, amended by Notification No. 43/2017 dated. 30.06.2017, further amended by Notification No. 42/2022-Customs dated 13.07.2022, Notification No.07/2024-Customs dated 29.01.2024; amended further vide Notification No. 38/2024-Customs dated 23rd July, 2024 as amended from time to time.

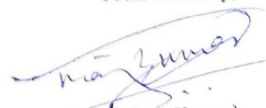

With Reference: Your requisition dated 30.08.2024 on the above subject, this is the certificate registration.

CERTIFICATE OF REGISTRATION

This is to certify that **Jaypee University of Information Technology, Solan, Himachal Pradesh** other than Hospital*, is registered with the Department of Scientific and Industrial Research (DSIR) for purposes of availing Customs Duty exemptions in terms of Notfn. No. 51/96- Customs dt. 23.07.1996, amended by Notification No. 43/2017 dated. 30.06.2017, further amended by Notification No. 42/2022-Customs dated 13.07.2022, Notification No.07/2024-Customs dated 29.01.2024; amended further vide Notification No. 38/2024-Customs dated 23rd July, 2024 as amended from time to time for research purposes only. This Registration is subject to terms and conditions mentioned overleaf.

This Registration is valid upto **31.08.2027**
Please acknowledge the receipt.

Yours faithfully,

(Vinay Kumar)
Scientist - 'F'

** Certificate of registration is not valid for activities falling within the definition of "hospital" as per notification no. 51/96 - Customs dated 23-07-1996 issued by the Department of Revenue. The institutions are cautioned to go through the notification before availing duty exemptions under this notification.*

EXPANSIONS AND MODERNIZATION

DIGITAL LEARNING CENTRE (DLC)

World class facility enabled DLC with capacity of 120 students and surveillance camera including digital screens with video conferencing.

CAFETERIA

There are some significant extensions took place in JUIT Cafeteria, like beautification of interiors with more broader glass view of the valley and new ice cream parlour.

ADMISSION CELL

Exclusive well-structured, and exquisite-designed admission cell with ample space and fraternity for handling exclusive concerns regarding admissions.

Supervisor: Dr. Naveen Jaglan

MOU WITH DR. PARTEEK KUMAR'S LAB, WSU, USA

The MoU was signed on June 02, 2025, between lab of Dr. Parteek Kumar, Associate Professor, School of Electrical Engineering and Computer Science, Washington State University (WSU), Pullman, WA, USA and JUIT especially in the area of Computer Science Engineering. Under this MoU, Dr. Parteek Kumar will provide opportunities in research and internship in the area of Machine Learning, Explainable AI, Large Language Models and AI Applications. Students will acquire hands-on experience in his lab by analyzing data with a range of computational tools.

विभिन्न क्षेत्रों में उल्लेखनीय उपलब्धियों के लिए 26 हस्तियों को किया सम्मानित

डिप्टी सीएम ने बेस्ट ऑफ हिमाचल कॉफी टेबल बुक का किया विमोचन

शिमला। अपने जीवन में विशेष उपलब्धियों, राज्य के विकास और प्रगति में योगदान देने के लिए हिमाचल प्रदेश के 26 गण्यमान्य लोगों को सम्मानित किया गया। यह सम्मान अमर उजाला बेस्ट ऑफ हिमाचल कॉफी टेबल बुक के लोकार्पण अवसर पर बतौर मुख्य अतिथि पहुंचने उप मुख्यामंत्री मुकेश अग्निहोत्री ने दिए। इस समारोह में वध्वी, कारोबारी, शिक्षा, चिकित्सा समेत विभिन्न क्षेत्रों में लोक से हटकर काम करने वाली को अलंकृत किया गया। कार्यक्रम को शुरूआत दीप प्रज्वलन से हुई। सरस्वती वंदना और लोकनृत्य को भी प्रस्तुति दी गई। समारोह का आयोजन गोल मोटर्स के सहयोग से किया गया। मुकेश अग्निहोत्री ने इस अवसर पर कहा कि होमलॉस से ही उड़ान होती है और निजी क्षेत्र में खड़ी उड़ान सकते हैं, जो कविलि हों और विनयेक इरादे मजबूत हों। प्रगति

JUIT ALUMNI ACHIEVE GLOBAL ACADEMIC SUCCESS

From JUIT's Department of Biotechnology and Bioinformatics, Chirag, Ishika, and Rimjhim have completed their Master of Science (MS) degrees, while Payal and Priya have earned their Doctor of Philosophy (Ph.D.) degrees from the South Dakota School of Mines and Technology (SD Mines), USA, in the domain of Chemical and Biological Engineering.

Their academic pursuits were guided and financially supported through research assistantships under the mentorship of Dr. Rajesh Sani, a renowned expert in microbial engineering and sustainable biotechnology. The students were actively involved in cutting-edge research aligned with environmental sustainability and industrial bio-processes.

These accomplishments not only reflect the talent and diligence of the students but also underscore JUIT's emphasis on research, innovation, and international

collaborations. The university continues to foster a culture that prepares students to contribute meaningfully to global scientific communities.

Such international recognition strengthens JUIT's reputation as a launchpad for aspiring researchers and professionals in biotechnology and engineering.

HR CONCLAVE 2025

HR Conclave 2025 was a landmark event that brought together over 16 HR leaders, CEOs, Founders, and CXOs from across India. The event was organized by Training and Placement Team, JUIT from May 01-02, 2025. The event created a vibrant platform for networking, thought leadership, and strategic collaboration. Attendees hailed from major metro hubs and regional talent clusters, amplifying the conclave's national reach.

The recent initiative has significantly enhanced **JUIT's corporate branding**, positioning the university as a preferred destination for industry collaboration and academic excellence. The event has also driven **increased interest in internships and placements**, with leading organizations actively engaging with students.

INNOVATE TO EXCEL 2025

The three-day innovation event, **Innovate to Excel 2025**, hosted by **JUIT, Waknaghat**, began on **May 2, 2025**, with the arrival and verification of participants. As a residential event, hospitality and logistics played a crucial role in setting the tone, ensuring that each participant especially those from outside campuses was smoothly checked in and allotted their accommodation. Students traveled from across North India to participate, including representatives from **Jaypee University, Anoopshahr, IIIT Noida, Kurukshetra University, Polytechnic College for Women, Kandaghat**, and other regional institutions. With over **100 enthusiastic participants**, the event promoted diverse cultural ex-

change, collaborative energy, and a multidisciplinary innovation environment.

On May 3, 2025, the second day began with great enthusiasm and a vibrant schedule. The day opened with the Hacking Hills Hackathon, a 24-hour coding marathon hosted by **ACM** and **SIAM** student chapters in LT2. Teams formed to tackle real-world problems using their creativity and technical skills in software development. Running parallel to it was **Hard-Wired**, a hardware-based prototype challenge conducted in the ground floor hallway by **IEEE JUIT**, where teams engaged in component-level innovation and system assembly. These events tested both theoretical knowledge and real-time problem-solving under pressure.

The official kickoff of the festival took place at LT3 with the **Inaugural Ceremony**, followed by an insightful session led by a distinguished guest speaker Dr. Surender Singh Saini, Senior Principal Scientist at ISTC-CSIO, Chandigarh, who shared his journey in industrial innovation and research, compelling perspectives on international research collaboration and the role of youth in driving technological progress.

Soon after, the creative energy of the participants was channeled into Lenscape, a visual storytelling competition hosted by CSA, where participants captured themes like innovation, humanity, and change through their camera lens. At the same time, Hard-Wired teams began their evaluations, presenting their working prototypes to judging panels.

The afternoon featured two flagship events under TIEDC. The first was the Startup Panel discussion held in the DLC, which welcomed well-known startup consultants, founders, and investors. Mr. Ekant Aggarwal, Mr. Amit Madan, Mr. Hitesh Gulati, and Mr. Anmol Jamwal offered deep insights into entrepreneurship, funding, and the journey of building a startup. These professionals shared practical insights on business modeling, funding, go-to-market strategies, and the evolving Indian startup ecosystem. This interactive session gave participants direct exposure to what drives startup success and innovation leadership. Following the panel, the BoardRoom Simulation took place, providing students a dynamic setting to act as CEOs, CFOs, and startup founders pitching business plans and making executive decisions. The simulation was realistic and intense, pre-

paring students for actual entrepreneurial board-level challenges.

In the engineering block, students took part in **Bridge Building** and **Tower Making**, events where teams constructed architectural models using basic materials and applied physics, creativity, and teamwork to compete for structural integrity and design innovation.

On **May 4, 2025**, the final day opened with **Codathon**, a coding competition hosted by the **Technical Club JYC**, running simultaneously with the final evaluation round of the *Hacking Hills* hackathon. These concluding events focused on logical thinking, software design, and product viability. Participants showcased their final builds and explained the impact, scalability, and usability of their solutions.

The **Grand Prize Distribution and Closing Ceremony** was held in CR3, where top performers across all events were honored.

FACULTY DEVELOPMENT PROGRAM

VLSI DESIGN: BRIDGING THEORY AND PRACTICE

The Department of ECE organised FDP on VLSI Design : Bridging Theory and Practice in collaboration with Electronics & ICT Academy, Centre for Development of Advanced Computing (CDAC),

Mohali, IEEE R10 EAC, IEEE India Council, IEEE Delhi Section, IEEE MDC, SAC and WIE AG Delhi Section and IEEE JUIT SB from June 9-13, 2025.

The FDP was formally inaugurated by the Chief Guest, Mr. V.K. Sharma, Scientist-G and Director at CDAC Mohali on June 9, 2025. Dr. Manoj Saxena from University of Delhi, and Dr. Balwinder Singh from CDAC Mohali were guest of eminence and guest of honor respectively.

In the inaugural address, Mr. Sharma emphasized the importance of VLSI design in the context of India's growing semiconductor ecosystem. He highlighted ongoing national initiatives focused on self reliance in chip design and manufacturing. His insights motivated the participants and outlined the critical role of academic-industry collaboration in building future-ready engineers in the field of VLSI.

Resource persons of the FDP were

1. Mr. V.K. Sharma, Scientist-G, Director, CDAC Mohali (Chief Guest)
2. Prof. Rajendra Singh, Department of Physics, IIT Delhi (Resource Person)
3. Prof. Sudeb Dasgupta, Department of ECE, IIT Roorkee (Resource Person)
4. Dr. Balwinder Singh, Scientist-E, CI, E&ICT Academy, CDAC Mohali (Guest of Eminence & Resource Person)
5. Prof. Manoj Saxena, Department of Electronics, University of Delhi

(Guest of Honor & Resource Person)

6. Mr. Harpreet S. Jatana, Former Group Head, SCL Mohali and ISRO (Resource Person)

With the participation of 42 participants from 13 states across 28 institutions, this professional development initiative aimed to bridge the gap between academic teaching and industry demands in VLSI technology.

ACM INDIA SUMMER SCHOOL 2025

The ACM India Summer School 2025 on Quantum Circuits and

Quantum Algorithms was organized and hosted by the CSE Department from June 9 to 20, 2025. The summer school brought together lead-

ing faculty and 38 selected students for an intensive 11-day training program in quantum circuits and algorithms. Sessions featured a blend of theory, problem-solving, and hands-on simulation using Qiskit. The active involvement of esteemed instructors from premier institutions across India and abroad ensured high-quality delivery and engagement. The school also served as a platform to identify and encourage two outstanding students, who will be nominated for recognition at the upcoming ACM India

Annual Summit. An intellectually

vibrant and deeply engaging two-week journey, the ACM India Summer School 2025 concluded with a valedictory ceremony.

FAREWELL – JUIT BATCH OF 2025

JUIT Solan, witnessed a poignant and unforgettable moment on May 16, 2025, as the university extended a warm and emotional farewell to its graduating batch of 2025. Organized by the JUIT Alumni Cell, the valedictory Dinner with the Vice Chancellor was held at the university auditorium and later transitioned into a celebratory evening at the porch area, capturing the spirit of camaraderie and nostalgia.

The event was flawlessly coordinated under the leadership of Dr Saurabh Bansal, faculty in charge JAC and his core team of students, Unnati Pant, Shantanu Tripathi, Shreshth, Arin, Vardaan, Anvesha, Ridhima, Vidit, Mannat, Shrishti and Raghav. A highlight of the evening was the cake-cutting ceremony, which was met with cheers, laughter, and heartfelt farewells. The farewell was a testimony to the bonds formed at JUIT—bonds that will be carried forward into the future.

TWO-WEEK NATIONAL WORKSHOP ON DYNAMICAL SYSTEMS AND CONTROL

A two-week National Centre for Mathematics (NCM) workshop on “Analysis of Dynamical Systems and Applications to Control Systems” was successfully organized by the Department of Mathematics, JUIT Waknaghat, Solan, Himachal Pradesh, from June 9-21, 2025.

The workshop was conducted in collaboration with the National Centre for Mathematics (a joint centre of IIT Bombay and TIFR, Mumbai). This academically enriching event brought together eminent mathematicians, researchers, and students from across the country to delve into advanced topics in dynamical systems and their applications in control theory.

The workshop hosted a distinguished panel of speakers including Prof. Syed Abbas from IIT Mandi, Prof. A. K. Nandakumaran from IISc Bangalore, Prof. Mani Mehra from IIT Delhi, Dr. D. N. Pandey from IIT Roorkee, Dr.

Bidhan Chandra Sardar from IIT Madras, and Dr. Tanmay Sarkar from IIT Jammu. Their lectures spanned a wide range of topics in mathematical modeling, stability analysis, nonlinear systems, and control theory, providing the participants with deep theoretical insights and current research trends in the field.

In addition to the lectures, tutorial sessions were conducted by Dr. Ranjith T from IISc Bangalore, Ms. Deeksha Srivastava from IIT Roorkee, Mr. Shivam Mishra from IIT Mandi, and Mr. Sarvesh from IIT Delhi. These sessions focused on hands-on problem-solving and helped participants to apply theoretical knowledge to practical and computational problems. Participants, including faculty members, doctoral candidates, and postgraduate students from various parts of India, actively engaged in the discussions and sessions throughout the two-week program.

JOURENYFROM IDEA TO PATENTS

The IPR Cell of JUIT organized an insightful knowledge-sharing session titled "Journey from Idea to Patent" on 21st May 2025. The event was well-attended by faculty members and Ph.D. scholars of the university, reflecting the growing interest and importance of Intellectual Property Rights in academic research and innovation. The session was graced by Dr. Anita Sardana as the resource person. Dr. Anita shared her valuable knowledge and experiences from her journey in the field of patents, covering critical aspects of how an idea is nurtured, developed, and protected through patent filing and prosecution. She explained the process flow

of Patent filing till grant and importance of various steps in it. She resolved the queries of participants on matter of utility and grant patents.

HOW TO WRITE A SUCCESSFUL RESEARCH PROJECT

A one-day Faculty Development Program (FDP) titled *"How to Write a Successful Research Project"* was

successfully organized on 03 May

2025 from 11:00 AM in **Digital**

Learning Center. The resource person

of the event was **Prof. Mukesh**

Singh, Senior Member IEEE, Department

of Electrical and Instrumentation Engineering

Thapar Institute of Engineering and Technology (TIET),

Patiala. An alumnus of IIT Guwahati,

Prof. Singh brings with him a wealth

of experience, having secured a cumulative

research grant of ₹23 Crores.

The event was aimed at equipping

faculty members and Ph.D. scholars

with practical insights into writing effective and fundable research proposals.

Prof. Mukesh Singh's sessions covered

key elements of a compelling

proposal, including clarity of objectives,

alignment with funding agency

priorities, structuring the proposal,

and budgeting strategies. Prof. Singh discussed examples from his own funded projects, highlighting common pitfalls and best practices that contribute to successful grant acquisition.

The interactive format allowed participants to engage with the resource person, ask questions, and reflect on their own research plans. The session concluded with a vote of thanks to Prof. Singh for his time and expertise, and to all participants for their enthusiastic involvement.

Feedback from the attendees was overwhelmingly positive, with several suggesting

follow-up workshops and extended

sessions on related themes.

WORKSHOP ON FOSTERING VISIONARY ACADEMIC LEADERSHIP FOR INSTITUTIONAL EXCELLENCE

On **June 02, 2025**, at the **DLC**, the event was commenced at **10:00 AM**, aiming to promote awareness and academic engagement.

The event was graced by **Dr. Prateek Kumar**, a distinguished faculty member from the **School of Electrical Engineering and Computer Science, Washington**

State University, USA, as the keynote speaker. Insights into graduate studies and collaborative research in the USA

Dr. Kumar's presentation was followed by an interactive Q&A session where participants enthusiastically engaged in discussions on signal processing applications, research pathways, and global opportunities.

MONSOON-MIND: PREDICT THE RAIN- AN AI CHALLENGE ON CLIMATE ACTION

The Monsoon-Mind: Predict the Rain-An AI Challenge on Climate Action was organized by the Centre of Excellence in Artificial Intelligence for Education (CoE-AIE) during 17 April –14 May 2025. This event is inspired by United Nations Sustainable Development Goal 13: Climate Action. Through this challenge, aimed to foster data-driven thinking and innovation in climate modeling using Artificial Intelligence. This event empowers students to contribute meaningfully to one of the most pressing global challenges, climate change, through the lens of AI and sustainability.

Over the course of four weeks, participants were tasked with developing machine learning and deep learning models to predict Indian Summer Monsoon Rainfall (ISMR) using historical climate and rainfall data. The core objectives of the challenge included:

- **Understanding and Preprocessing Monsoon Data:** Participants worked with historical rainfall datasets, potentially combined with other climate indicators like temperature, pressure, or Niño indices.
- **Building Predictive Models:** Competitors applied techniques such as:
 - Classical ML models (Linear Regression, Random Forests, etc.)
 - Deep Learning models (ANNs, LSTM, Bi-LSTM, etc.)
- **Evaluating Prediction Accuracy:** Models were judged based on accuracy metrics like RMSE, MAE, and visualizations comparing predicted vs actual rainfall.

A total of **8 teams** registered for the event, representing a diverse mix of students from second-year to pre-final-year students. The participants came with backgrounds in python programming, artificial intelligence, and related fields, bringing unique perspectives and skillsets to the competition.

The broad diversity in experience levels and the collaborative spirit of the event led to the generation of innovative solutions that were both technically sound and creative.

Winners

First Place: Aditya Singh & Bhumika Gupta (Pre-Final-Year Students)

Second Place: Ramandeep Singh Makkar (Pre-Final-Year Student)

Third Place: Deepankar Sharma (Pre-Final-Year Student)

CONNECTING STUDENTS TO SEMICONDUCTOR INDUSTRY

The Department of ECE organized a one-day expert workshop on Very-Large-Scale Integration (VLSI) and related career opportunities on May 01, 2025. The event

was conducted in collaboration with VLSI for All Pvt. Ltd., Noida (U.P.), and featured a keynote session by Mr. Rajat Kumar Singh, CEO of VLSI for All and a seasoned professional in the semiconductor industry.

Mr. Singh opened the session with an in-depth overview of the current state of VLSI technology and its transformative impact across industries such as mobile communications, autonomous vehicles, IoT, and artificial intelligence. Emphasizing the rapidly growing demand for skilled VLSI professionals, he highlighted the significant talent gap, particularly in India, and the need for academic institutions to prepare students accordingly.

Drawing from his own academic and professional journey, Mr. Singh offered students valuable insights on building a career in the VLSI domain. He stressed the importance of industry-recognized certifications, internships, project-based learning, and staying updated with

the latest technological trends. "Stay curious and keep learning—the VLSI industry thrives on innovation and continuous advancement," he advised.

The session stood out for its **interactive format**, with Mr. Singh responding to student queries and engaging in discussions around career pathways, essential technical skills, and global industry trends. His personal anecdotes as a former student helped create a motivational connection with attendees.

A key take away from the session was Mr. Singh's emphasis on practical exposure, encouraging students to actively pursue hands-on projects, internships, and entrepreneurial ventures in the semiconductor space. He underlined that innovation in VLSI offers vast potential not only for employment but also for start-up opportunities in the Indian context.

The workshop witnessed enthusiastic participation from both B.Tech. and M.Tech. students, as well as faculty members from the ECE department. The session aimed to provide a holistic understanding of the global VLSI ecosystem and to motivate students to explore the multitude of opportunities available in this rapidly evolving field.

In his concluding remarks, Mr. Singh expressed optimism about India's potential to lead in the global semi-

conductor arena, and encouraged students to take advantage of the emerging prospects in the VLSI industry.

FELICITATION PROGRAM FOR JUIT GAT - B MOCK TEST ACHIEVERS

At the beginning of the event the students and guests were welcomed by Prof Anil Kant the coordinator of the event. He told the Graduate Aptitude Test (GAT-B) is conducted by DBT, Govt. of India via NTA and

qualified student get opportunity to get admissions in post graduate programs in Biotechnology and related fields in some the the topmost institutes of India with a

scholarship ranging from Rs. 5000 to Rs. 12000 depending upon the stream. He hailed the students for

their achievement and said that every achievement is a promise that their potential has no limits. The event was conducted on 10th May, 2025.

Prof Rahul Shrivastva took feedback from the students about their experience and exposure. He also thanked JUIT administration and authorities for all the facilities and approval to carry out the Mock GAT B test at various colleges.

After the main event a visit of invited students to laboratories and facilities in the Department of Biotechnology and Bioinformatics and Jaypee University Campus was carried out.

SUMMER TRAINING WORKSHOP

A Six-Week Summer Training Workshop was organized by the Department of Biotechnology and Bioinformatics for M.Tech./B.Tech./M.Sc./B.Sc. students from June 03—July 15, 2025. The workshop provides lectures and rigorous Hands-on-Training to outside participants in various modules - Molecular Biology and Genetic Engineering Techniques, Bioinformatics, Industrial Plant Tissue Culture, Microbial Pathogens, Medical Genomics & Animal Handling etc.

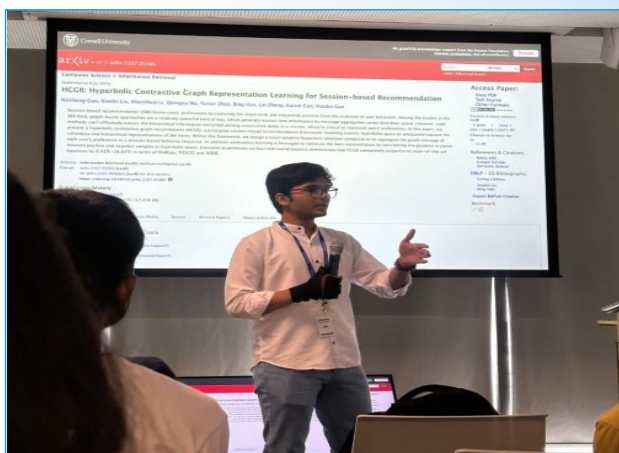

MICROSOFT AZURE IGNITE 2.0 – A DAY OF INSIGHT, INNOVATION, AND INSPIRATION

Three students (Nivi Jha (Roll No. 231030106), Aarya Gupta (Roll No. 231030108), and Raavi Aggarwal (Roll No. 231031009)) from JUIT, Solan recently had the opportunity to attend **Microsoft Azure Ignite 2.0** in Noida, that brought together industry leaders, developers, and students to explore the future of cloud, AI, and software innovation on June 20, 2025. The event was a transformative experience for the attendees, offering not only technical knowledge but also actionable career guidance and invaluable networking opportunities.

One of the key highlights of the event was the session by **Mr. Ashish Kumar Verma**, who delivered a compelling talk on advanced Artificial Intelligence systems. He broke down complex concepts such as Large Language Models (LLMs), Minecraft agents, Retrieval-Augmented Generation (RAG) pipelines, and Agentic Memory into digestible insights that were accessible to both students and professionals. His session challenged attendees to think beyond technical implementation and explore AI as a mindset and a problem-solving approach.

Another standout session was led by Mr. Ankush Dharkar, who provided practical career advice tailored to aspiring technologists. He emphasized the importance of building resumes that reflect impact rather than just listing skills, understanding the nuances of Applicant Tracking Systems (ATS), and using referrals and personal branding as strategic tools in the job market. His guidance resonated with students seeking direction in a competitive landscape.

Harsh A., known for his product and startup insights, focused on the evolving SaaS ecosystem. He outlined

how today's most successful products are those that solve real problems and highlighted the role of platforms like G2 and Product Hunt in product discovery. He also explored how psychological triggers, such as FOMO (Fear of Missing Out) and YAMO (You're Also Missing Out), can be powerful tools for product posi-

tioning and user acquisition.

The event was expertly curated by **Azkar Uddin Khan** and hosted with great energy by **Devansh Singh Parmar**, ensuring smooth transitions between sessions and maintaining a vibrant atmosphere throughout the day.

All three students (Nivi, Aarya, and Raavi) reflected positively on their experience, noting that the event provided a rare blend of technical learning, industry exposure, and motivational storytelling. In particular, they found value in the direct interactions with professionals who bridged the gap between academic knowledge and real-world application.

FACULTY CORNER

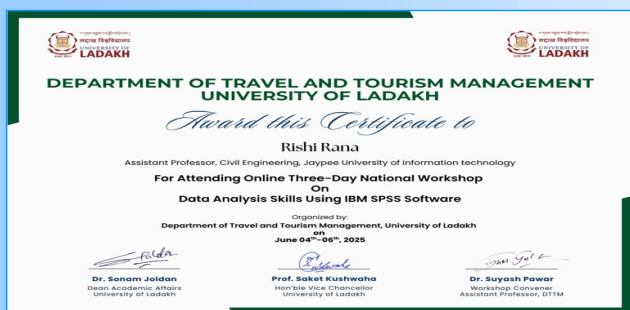

- **Prof. Hemant Sood** from the Department of Biotechnology and Bioinformatics, JUIT delivered an insightful expert lecture on "Intellectual Property Rights: Management and Commercialization as part of the Faculty Development Programme (FDP) organized by IQAC of Centre of excellence at Government College Sanjauli, Shimla on May 15, 2025. The session offered deep insights into the importance of IPR in academia and research, fostering awareness and innovation among faculty members.

- **Dr. Kaushal Kumar** served as a session chair at – ISCESTI (International Conference on Innovations and Sustainability in Civil Engineering) 2025 organized at National Institute of Technology (NIT) Patna on May 14–16, 2025.

- **Dr. Amardeep** successfully completed the NEP 2020 Orientation & Sensitization Programme under the UGC's Malaviya Mission Teacher Training Programme (MMTTP), held from June 9–18, 2025, at Shri Mata Vaishno Devi University, Katra. He was awarded an "A+" grade, demonstrating excellence in understanding and aligning with NEP 2020 principles.

- **Dr. Rishi Rana Kalia** attended Three-Day National Workshop on "Data Analysis Skills Using SPSS Software", held from June 4 to June 6, 2025 through virtual mode at Department of Travel and Tourism Management, University of Ladakh.

BRIDGE MAKING COMPETITION

A Bridge Making Competition igniting innovation through structural ingenuity was organized by Civil Engineering Consortium (CEC) in Collaboration with IIC on May 03 & 04, 2025 at Dhyani Kaksh (DK) & Open Cafeteria (OC), JUIT. The competition was successfully coordinated by a dedicated team of 3rd-year CEC members, who managed everything from logistics to participant engagement with professionalism and enthusiasm. Teams of 4–5 participants were tasked with

building structurally sound and aesthetically creative bridges within a fixed time frame using only the provided materials. A total of 16 students took part in this exciting challenge. The construction phase witnessed impressive displays of ingenuity. The enthusiasm of the participants, the dedication of the organizing team, and the gracious support of our esteemed faculty members turned this event into a memorable and meaningful experience.

OUTREACH ACTIVITY

Prof. Ashish Kumar on 29th May, 2025 delivered lecture at the District-Led Deliberation (DLD) organized under the aegis of CBSE, held at Gurukul International Sr. Sec. School, Solan (HP). The event was part of CBSE's in-house teacher training of the CBSE Training Modules, focusing on "Experiential Learning through motivated STEM." He conducted two interactive sessions on

the topic: Project-Based Learning (PBL) & Real-World Application in ICT and Assessment and Implementation Strategies for Experiential ICT. A total of 40 PGT Teachers from 8 different schools of Solan District attended the session. They were motivated to implement Project-based learning in their academic activities.

Editorial Board

Prof. (Dr.) Rajendra Kumar Sharma, Vice Chancellor

Prof. (Dr.) Ashok Kumar Gupta, Dean (A&R)

Prof. (Dr.) Shruti Jain, Associate Dean (Innovation)

Prof. (Dr.) Hemant Sood, Dept of BT/BI

Dr. Neel Kanth, Dept of Maths

Dr. Surajit Kumar Hazra, Dept of PMS

Dr. Rishi Rana, Dept of CE

Dr. Nancy Singla, Dept of CSE/IT

Dr. Suresh Kumar, LRC

Dr. Atul Kumar Singh, Dept of HSS

Ms. Pragya Gupta, Dept of ECE

Mr. Promod Kumar, Dept of CSE/IT

Mr. Mahender Thakur, Dept of HSS
