PROFILE SUMMARY

Passionate about the potential of DataScience, with a strong interest in Data Structures and Algorithms using C. I aim to explore innovative solutions to real-world problems. Driven by curiosity and a desire to create meaningful impact, I'm committed to learning and contributing to the evolving field of DS.

PROJECTS & EXPERIENCE

Key Projects & Accomplishments

Jarvis Virtual Assistant – Developer

Built a voice-activated desktop assistant in Python to automate tasks like opening apps, playing music, sending emails, and more. Used speech recognition and text-to-speech for hands-free interaction.

Weather App – Developer

Created a Python app that fetches and displays real-time weather data using the OpenWeatherMap API.

Designed a simple interface to show temperature, humidity, and conditions.

CERTIFICATIONS & INTERNSHIP

Trainee Software Developer – i Telemetry Technologies Pvt. Ltd.,
Noida (Work From Home)

- Assisted in software development tasks and gained exposure to real world development
- Improved programming, debugging, and problem solving skills while in a Professional environment.
