Business Boot Camp on Medicinal Plant-Based Product Development: Bridging Science with Entrepreneurship

The **Institution Innovation Council (IIC)**, in collaboration with the **GCC and Technology Incubation and Entrepreneurship Development Cell (TIEDC)** and the **Department of Biotechnology and Bioinformatics**, organized a **Business Boot Camp** on **31st July 2024** at the **Plant Tissue Culture Laboratory**, Jaypee University of Information Technology, Solan, Himachal Pradesh. The camp focused on **medicinal plant-based product development** and aimed at **igniting innovation and entrepreneurial thinking** among participants through experiential learning and strategic mentoring.

This intensive training program was tailored to provide participants—especially aspiring entrepreneurs and researchers—with the essential skills to transform scientific innovations into commercially viable products. A core emphasis was placed on developing a **Minimum Viable Product (MVP)** using **plant tissue culture techniques**, allowing participants to prototype and validate their product ideas in a real-world context. **Prof. Hemant Sood** provided a detailed orientation on cultivating commercially significant medicinal plants and shared **basic business strategies** for launching incubation-driven commercial ventures.

Key Highlights and Objectives:

- The session emphasized **hands-on learning** in developing products from medicinal plants using **plant tissue culture methods**, with a focus on creating scalable and sustainable business models.
- Participants explored how these biotechnological techniques could serve as the foundation for **commercial lab setups**, with guidance on regulatory considerations and quality assurance.
- **Mentoring sessions** were conducted to guide participants in identifying their unique value propositions, refining their MVPs, and exploring paths to commercialization.

- Additional insights were shared on **Intellectual Property (IP) protection**, highlighting its importance in safeguarding innovations and enhancing product value.
- The boot camp also introduced participants to **digital marketing and data analytics tools**, enabling more effective positioning and outreach for their biotech-based products.

This initiative served as a crucial step in encouraging interdisciplinary innovation and empowering students and researchers to transition from lab-based research to **market-ready solutions**.

Participants :

S.No.	Name	Roll Number
1.	SHREYA GEHLOT	2025MSCDBT002
2.	SUNIDHI CHAUHAN	255111001
3.	ADITI SUMAN	255111002
4.	ABHIJITHA AYYALASOMAYAJULA	255111003
5.	SANSKRUTI SANTOSH INGALE	255111004
6.	AARYA KAILASH BADADHE	255111005
7.	ANKAN DALAL	255111006
