An Industrial visit to Mohan Meakin Pvt. Limited, Solan, H.P.

Dated 20-01-2026

Number of students 29

Place of visit: Mohan Meakin Pvt. Limited

A group of 29 students from Jaypee University of Information Technology (JUIT) undertook an industrial visit to Mohan Meakin Pvt. Limited, Solan, Himachal Pradesh, on 20th January 2026. The student group was accompanied by Prof. Dr. Jata Shankar and Dr. Abhishek Chaudhary. The group comprised students from M.Tech Biotechnology, M.Sc. Biotechnology, and M.Sc. Microbiology first year programs.

The journey commenced from the JUIT campus at 10:00 AM, and the group arrived at the Mohan Meakin Industry approximately at 11:00 AM. Upon arrival, the students were enthusiastic and keen to learn about the industrial manufacturing processes. At the entry gate, the AGM Col. Joginder Singh provided an overview of the company's history, its founding members, and its growth over the years.

The students were then guided through the fermentation facility, where they were shown various equipment, associated with fermentation, bottling, packaging, raw material and the overall machinery setup involved in the production and packaging process.

The students actively interacted with the technical staff and sought detailed information regarding the manufacturing procedures, quality control measures, and the role of biotechnology and microbiology in industrial production. The interaction was highly informative and helped bridge the gap between theoretical knowledge and practical industrial applications.

At 2:00 PM, the group departed from Mohan Meakin for the return journey to JUIT Wagnaghat. The students reached the campus at around 3:00 PM, having gained valuable exposure and insight into the operations of one of India's most reputed industrial organizations.

The Department of Biotechnology and Bioinformatics extends its sincere gratitude to Col. Karan Chuhan, Col, Jogender, Mohan Meakin Solan, for his permission and continuous support in making this visit successful and for helping achieve the intended learning objectives. The department also expresses its heartfelt thanks to HOD Sir, Prof. Jata Shankar, Dean of Academics, Prof. Shruti Jain, and Honorable Vice Chancellor Sir, Prof. R. K. Sharma for granting permission and encouragement to organize this industrial visit for the students.

Thanking you

Dr. Abhishek Chaudhary

Asst. Professor

Department of Biotechnolgy and Bioinformatics
