## **Report on Bio hackathon Organised by Synapse Club under BIOxcelerate 2026**

### **1. Introduction**

The Bio Hackathon was successfully organized by the **Synapse Club** as part of its flagship event, **BIOxcelerate 2026 in collaboration with IIC JUIT**. The event was conceptualized to promote problem-solving, innovation, and interdisciplinary thinking among students in the domains of biotechnology, bioinformatics, and life sciences.

The BioHackathon provided a competitive yet collaborative platform where participants were challenged to analyze biological problems, design feasible scientific solutions, and present their ideas within a limited time frame. The event emphasized analytical thinking, teamwork, and the practical application of theoretical knowledge, thereby bridging the gap between classroom learning and real-world scientific challenges.

### **2. Objectives of the BioHackathon**

The BioHackathon was conducted with the following objectives:

- To encourage innovative and research-oriented thinking among students
- To promote interdisciplinary problem-solving in biotechnology and bioinformatics
- To enhance analytical, computational, and experimental planning skills
- To provide exposure to real-world biological challenges
- To foster teamwork, communication, and scientific presentation skills

### **3. Event Details**

- **Event Name:** Bio Hackathon
- **Date:** 23 January 2026
- **Venue:** LT3
- **Organizing Body:** Synapse Club
- **Flagship Event:** BIOxcelerate 2026
- **Participants:** Undergraduate and Postgraduate students
- **Mode:** On-campus, team-based competition
- **Number of Teams:** 12

### **4. Event Coordination and Management**

- The Bio Hackathon was coordinated by **Mr. Devansh Kalia**, President of the Synapse Club, who played a pivotal role in the conceptualization, planning, and execution of the event. Prior to the

(Established by H.P. State Legislature vide Act No. 14 of 2002)

commencement of the hackathon, a detailed orientation session was conducted to explain the event structure, problem statements, evaluation criteria, ethical considerations, and time constraints.

- Participants were briefed on teamwork guidelines, originality of ideas, data integrity, and responsible scientific conduct. The organizing committee ensured smooth coordination throughout the event, including venue management, time monitoring, and facilitation of interactions between participants and evaluators.

## 5. Methodology and Execution

The BioHackathon was conducted in a structured and time-bound manner. Participating teams were provided with problem statements related to biotechnology, bioinformatics, healthcare, environmental sustainability, and industrial applications.

The execution involved the following stages:

- Understanding and analyzing the assigned problem statement
- Conducting background research and brainstorming possible solutions
- Designing experimental, computational, or hybrid workflows
- Preparing a structured solution including methodology, expected outcomes, and feasibility
- Presenting the proposed solution before the judging panel

Teams demonstrated critical thinking by integrating biological concepts with computational tools, experimental design, and innovation. Emphasis was placed on feasibility, originality, and scientific reasoning rather than mere theoretical explanations.

## 6. Mid-Evaluation Committee and Special Jury

The mid-evaluation of the event was conducted to assess participant progress, ensure adherence to guidelines, and provide constructive feedback during the execution phase. The evaluation process was carried out by the office bearers of the **Synapse Club**, along with designated special judges.

### Mid-Evaluation Committee (Office Bearers)

- **Mr. Devansh Kalia**  
*President, Synapse Club*
- **Mr. Prerak Chouhan**  
*General Secretary, Synapse Club*
- **Mr. Aditya Sharma**  
*Treasurer, Synapse Club*

The office bearers closely monitored team progress, evaluated methodological planning, assessed scientific clarity, and ensured compliance with ethical and biosafety standards throughout the mid-evaluation phase

### Special Judges

- **Ms. Prateeksha Guasian**  
*Special Judge*

**JAYPEE UNIVERSITY OF INFORMATION TECHNOLOGY**  
WAKNAGHAT, P.O. – WAKNAGHAT,

(Established by H.P. State Legislature vide Act No. 14 of 2002)

- **Mr. Ritik Joshi**  
*Special Judge*

The special judges provided independent evaluation and expert feedback, focusing on innovation, feasibility, clarity of concept, and overall scientific merit. Their involvement added depth and objectivity to the evaluation process, contributing significantly to maintaining fairness and academic rigor.

### **7. Final Evaluation Committee**

The final evaluation of the competition was conducted by a distinguished panel of faculty members, ensuring academic rigor, transparency, and fairness in the assessment process.

#### **Evaluation Panel**

- **Prof. Hemant Sood**
- **Dr. Raj kumar**
- **Dr. Udayabanu, M**
- **Dr. Shikha Mittal**

The panel evaluated the participants based on predefined criteria including scientific merit, innovation, technical execution, clarity of presentation, feasibility of the proposed idea/design, and adherence to safety and ethical guidelines.

#### **Winners and Recognitions**

- **First Position:** Team OOPs!
- **Second Position:** Helix Net
- **Third Position:** ML CODERS
- **Consolation Prize:** Protifold & Genomic Coders

### **8. Conclusion**

The event was successfully conducted as part of **BIOxcelerate 2026**, fulfilling its objective of promoting scientific thinking, creativity, and innovation among students. Through well-structured planning, disciplined execution, and rigorous evaluation, the event provided participants with a valuable platform to apply theoretical knowledge in a practical and intellectually engaging manner.

The active involvement of the organizing team, office bearers of the Synapse Club, and the evaluation committees ensured smooth coordination, adherence to academic and ethical standards, and transparency throughout the process. The event not only enhanced participants' technical and analytical skills but also encouraged teamwork, problem-solving, and effective scientific communication.

Overall, the event significantly contributed to strengthening the academic and research-oriented culture within the Department of Biotechnology and Bioinformatics and set a strong foundation for future initiatives under the Synapse Club.
